New Features That Leave Your Pool Dazzling

Dolphin
dynamicplus
by maytronics

Maytronics is proud to introduce the newest member in our family of Robotic Pool Cleaning products, the Dynamic Plus. Its new and improved features come together to form an optimally engineered cleaning machine that scrubs, sweeps, vacuums and filters your pool to a polished shine.

Dynamic Pool Cleaning Technology that Conforms to Your Pool
Cleaning your pool with the Dynamic Plus is quick, easy and fun. Its robust construction and state-of-the-art software efficiently scans your pool for optimal cleaning. A convenient, easy-to-use remote control with joystick lets you manually guide the robot into difficult to reach corners, perfectly match operation to your pool's size and shape, set cycle-time, and choose one of the robot's cutting-edge cleaning programs.

Streamlined Engineering – Care-free Operation

The Dynamic Plus offers efficient, unsupervised operation with a cycle-time that cleans pools in only three hours, and shuts off automatically at the end of the cleaning cycle. A convenient Filter Bag Indicator Light lets you know when to empty your filter bag while the robot's rugged power supply guarantees completely safe operation. All Maytronics products undergo rigorous testing to guarantee complete safety and are both CE and ETL certified.

New Features that Leave your Pool Dazzling

The Dynamic Plus comes with a number of unrivalled advantages that include:

- Maytronics patented Swivel, keeps the robot's power cable from tangling
- Water Line Cleaning program that cleans along the pool's edge
- Wall Climbing mode with frequency control
- Unique Laps Pool cleaning program
- Ultra-Clean program for more thorough cleaning
- Clogged filter bag indicator

The Dynamic Plus comes with a three-year warranty not limited by operating hours.

Maytronics, Gets People Swimming in the Newest Generation of Technology

Maytronics is recognized as the industry leader of quality pool cleaning robots by pool maintenance professionals around the world. All of our models offer unrivalled performance and convenient features that set the standards in high-tech, pool cleaning equipment.

Dynamic Plus with Remote Control
Recommended For Private Pools of Up to 12 meters

Where Engineering Meets Design
