#1 in
Fiber Optics.™

 FIBERSTARS®
Lighting For The 21st Century®

Make The Creative Choice of Full-Color

When you specify Fiberstars fiber optic swimming pool lighting for your new pool, you're selecting the most creative lighting system in the world!

The Fiberstars Color Wheel gives you the creative freedom to light your pool, spa, waterfall and surrounding landscape with exciting, exotic, *full-color!*

You set the mood. You can continually change the mood by rotating the colors in the wheel, or fix it on one. You decide. Set the scene. You're the artistic director.

You'll find that color adds a whole new spectrum of enjoyment to your new pool; while fiber optic lighting from Fiberstars adds real value to your pool investment.

Framing The Perfect Pool in Pure Color – Fiberstars Perimeter Lighting

with Fiberstar's Fiber Optic Pool Lighting

At Fiberstars, we're #1 in fiber optics with over 100,000 installed swimming pool lighting systems. Our state-of-the-art systems offer the utmost quality in manufacturing and engineering. Each system we deliver comes with the experience and design capability we've garnered as pioneers in the fiber optics field.

Fiberstars fiber optic pool lighting transforms any pool – vinyl, gunite, or fiberglass – into a showplace of the night.

Fiberstars' Perimeter Lighting accents the unique design of your pool with a ribbon of glowing colored light. Perimeter lighting encircles the pool, spa, steps, and the fountains creating an interesting complement to the central pool light when an additional illuminator is used to play one color off of another.

Lighting For The 21st Century[®]

FIBERSTARS

Fiber Optic
Pool Lighting—
Beautiful, Safe,
and Easy to Maintain.

Fiberstars® Falls

"Fiberstars® Falls" with patented technology adds a new dimension to your magic nightscape... the movement of an unbroken cascade of colorful falling water.

Illuminators

The illuminator is a top lit garden light. Comes with 4 or 8 position color wheel. Optional remote control allows remote operation of power and color wheel.

FiberSconce™/FiberDisk™

Adorn the walls of your spa and pool with these decorative and functional fiber optic features.

Perimeter Accents

Fiberstars' Perimeter Lighting can accent and dramatize the design of your pool. After dark, it can safely point out steps and other unique characteristics.

FiberStix®

"FiberStix"®— landscape wands that glow and change color with the system adding subtle drama to your pool and yard area.

FiberFountain™

"FiberFountain"™— a dramatic spray of undulating color reflecting off wall and water.

StarGlo®

"StarGlo"®— a flexible, bendable light fixture for waterfalls and landscape lighting of walls, trees, shrubs, etc.

*Exact color and brilliance of your pool will vary based upon surface material texture and color chosen. For example, pools shown on cover have white plaster surfaces.
