

PRESSURE CLEANER

 **Polaris280**

# **Polaris280**

Simple and efficient

 **Polaris**  
Water Pressure System®

# Polaris280

## Simple and efficient

Sturdy and efficient, the POLARIS 280 offers all the advantages of the latest technology. Its highly efficient transmission system ensures rapid multidirectional travel, whatever the size and shape of the pool. The 2 face-to-face jets provide a uniform venturi effect enabling the cleaner to adhere to the floor of the pool and ensure optimum cleaning performance.

### The Advantages of the Polaris 280:

- Designed for all types of pool
- Antilock recoil valve
- Multidirectional travel
- Easy to clean and refit filter bag
- 2 high-performance suction jets
- High-performance sweep hose
- Wide suction throat
- Sucks up all types of litter

JETS POWER

### General and Technical Characteristics:

Type of system	Booster pump power
<b>Hydraulic pressure</b>	<b>1 hp</b>
Motorisation	Working pressure
<b>Booster pump coupled to the filter system</b>	<b>2.2 bar</b>
Suction	Suction size
<b>2-jet venturi system</b>	<b>7 cm</b>
Travel	Dedicated sweeper socket line
<b>Random + automatic reverse</b>	<b>16-bar rigid pipes</b>
Litter capture	Weight
<b>Separate bag + sweep hose</b>	<b>3.2 kg</b>
Guarantee	Speed of travel
<b>2 years</b>	<b>15 m/min</b>
	Hose length
	<b>9.60 m</b>

### The Polaris 280 is designed to suck up:
